Fig. 6

665 – Hints

ARTi offers hints to users to assist in completing the questionnaire with the minimum effort.

EX.

Select the project type:

New construction	▼
------------------	---

Fig. 7

Select the building type:

Single family dwelling	▼
------------------------	---

Select the existing roof type:

Since the project type is "New construction", you won't be able to select an existing roof type.

Select one...	▼
---------------	---

670 – Warnings

Periodically ARTi may issue warnings which apply to the correct application of given roofing materials.

EX.

Fig. 8

Select the new roof type:

Concrete tile should only be used on roofs with a pitch of 4:12 or greater.

Concrete tile ▼

675 – ARTi's Suggestions

In addition to assisting a user complete the questionnaire, ARTi will also offer suggestions that will make the project run more smoothly.

EX.

Select the existing roof type:

Asphalt shingles ▼

Fig. 9

Select the new roof type:

Due to the increased weight of material selected, it is advisable that you have your structure examined by a qualified engineer
